DataSpider Servista 5.0.0 International Edition Supported Platforms per Adapter
(Advanced Server Package / Basic Server Package)

SAISON TECHNOLOGY Saison Technology Co.,Ltd.

This document provides a list of the platforms supported by each DataSpider Servista 5.0.0 adapter.

- Please note that the data source that you intend to connect to may no longer be supported. For details, refer to the end of support announcement.
- To use certain adapters, you may have to setup the environment in advance, such as installing the library provided by the vendor of the data source on your DataSpiderServer. For details, refer to "DataSpider Servista Install Guide" or "DataSpider Servista Online Help".
- For information about the operating environments for DataSpider Servista, such as supported platforms, supported web browsers, supported repository databases, and minimum system requirements, refer to the "DataSpider Servista System Requirements Search" page.

Update history

Update date	Category	Changes from the previous version
DataSpider Servista 5.0.0		
February 9, 2026		First edition for DataSpider Servista 5.0.0

Category	Name		Windows Server 2019 / 2016 / 2022 x64 version	Windows Server 2025 x64 version	Linux x64 version	Supported versions of the data source	Remarks
